 WITH
 PASSION

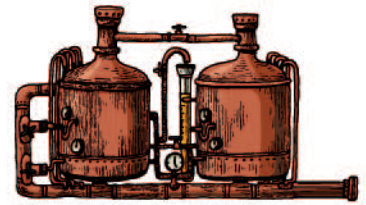

After a long hot summer day, Colonel rested on the shores of Batroun. Energized by the breathtaking views of the Mediterranean, he wished for a beer. But not just any beer, Colonel wanted a beer that was as refreshing, crafted with as much passion, and rooted as strongly in Batroun's heritage and lifestyle as the Mediterranean's waves, which had been breaking against land endlessly for thousands of years.

By nightfall, Colonel had set into motion the creation of what would become Batroun's first eco-friendly and independent microbrewery. Today, Colonel shares the dream brewed in every drop.

In addition to their beer, Colonel's micro-distillery is also now producing a new range of crafted spirits: gin, vodka, and arak.
